

Jacob Broadhead

I am a lifelong learner who transitioned from a laborer to a leader, founding a company and creating innovative solutions like a unique talent matching platform. Skilled in user experience design, digital media production, and front-end development, I embrace challenges and use my diverse abilities to make a meaningful impact. Driven to Aspire Hire, I believe there is nothing I can't learn or achieve.

User Experience Designer | Productivity Tools Design Lead

Aspire Ability Inc.

04/2020 - Present

Achievements/Tasks

At Aspire Ability, I advanced from User Experience Designer to Productivity Tools Design Lead. I designed, built, and launched innovative tools that solved both internal and client challenges while streamlining operations.

I played a pivotal role as lead-designer of a talent matching and upskilling enablement platform, implemented an internal management toolkit, and created a comprehensive skills database, mapping competencies across 50+ job titles in 10 industries.

In collaboration with industry experts, I defined role requirements for Cloud Computing, Cyber Security, and IT Support while automating task management processes and standardizing marketing assets.

I also designed a job board for the Navajo Nation that provided thousands with job access and strengthened client satisfaction through market research and user-focused solutions.

Owner | Operator

Utah Basement Windows LLC

09/2018 - 06/2019

Achievements/Tasks

As the owner and operator of Utah Basement Windows LLC, I managed procurement, inventory, and project schedules while consulting with clients to expand and enhance their homes and businesses through foundation modifications. I sourced custom windows and window wells, cut concrete foundations for new openings, and installed egress windows to meet regulatory standards.

Leading a team of 1099 employees, I ensured timely, high-quality results and maintained accurate financial records to sustain cash flow and profitability. My comprehensive approach ensured seamless project delivery, high customer satisfaction, and a reputation for reliable service.
